VOLUME XII.

MAYSVILLE, KY., TUESDAY, AUGUST 1, 1893.

NUMBER 214.

THE NEXT CONGRESS

What Is Expected From the Special Session.

EX-SPEAKER CRISP'S VIEWS.

It May Last Until the Beginning of the Regular Session in December—An Organization Not Expected For a Week After the Assembling Day—A Democratic Populist's Views on the Silver Question.

WASHINGTON, Aug. 1.—Although congress will assemble in a week very few members have as yet put in an appearance. Less than a score of representatives and a dozen senators are here.

Ex-Speaker Crisp was accessible at his hotel, and received many visits from members. Most of them had suggestions to make respecting their preferences in committee assignments. Mr. Crisp has been steadily noncommittal in his own expressions. He believes that the work of this special session will continue without intermission until next December, when the regular session convenes, and he hopes that the regular session of the Fifty-third congress will adjourn early next summer, so that the time spent in the special session will really be saved at the end of the regular session.

It is understood that the announcement of the committee appointments will not be made within a week or 10 days of the assembling of congress, and this fact has revived the scheme which is brought to the front at the beginning of every congress of passing a resolution allowing members to introduce bills and resolutions subject to reference to committees as soon as the latter is appointed.

Surprise is expressed that the customary call for a Democratic house caucus has not yet been issued. Mr. Holman of Indiana is the chairman of the caucus, and it is his function to issue this call, but he has not yet arrived in Washington. The uncertainty on this point has somewhat embarrassed the state delegations that have candidates in the field for house offices, as they desire to have their formal state caucuses fixed as early as possible preceding the full Democratic caucus.

One of these offices, which has somewhat attracted less attention this year than ever before, is that of chaplain of the house, vacated by the election of Chaplain Milburn to a similar position in the senate. So far as known, there are but two candidates in the field at this date. They are Rev. T. H. Stevenson, assistant pastor of the Baptist church at Englewood, Ill., and the Rev. Dr. Haddaway, late pastor of the Mount Vernon Methodist church in this city.

All the candidates for doorkeeper of the house of representatives are now on the ground, and the contest has begun in earnest. Mr. Hurt of Tennessee has opened headquarters at the Metropolitan, and Mr. Smith of Texas will be there some time this week. Mr. Turner will make his headquarters at his office in the house, but is likely to be found at those places where members are most liable to gather.

The attitude of Tammann toward Mr. Turner is so far an unknown quantity, though it is claimed by Mr. Turner's friends that organization will be for him. Mr. Turner also claims the bulk of the delegation from Georgia and Alabama, and all of Virginia and West Virginia.

The fight against Mr. Yoder, the present sergeant-at-arms of the house, is being conducted with some vigor. He finds an opponent in his own state, Mr. S. E. Johnson, and another in the person of ex-representative Snow of Illinois, who has opened headquarters and is showing considerable strength. How Ohio stands in regard to its two candidates is not known although each of the two men are claiming to have the support of the majority of the delegation.

Judge Livingston, Democratic Populist representative of Georgia, has a plan by which he hopes to bring the silver question before congress promptly. He says that at the first opportunity he can get he intends to introduce a joint resolution defining the policy of the government and declaring it to be the intention of this congress to maintain the use of gold and silver as a currency on parity with each other. "This," said Mr. Livingston, "will be a notice that we are favorable to a bimetallic currency, and I have no doubt that it will be adopted. We can then go about the consideration of the details more at leisure and effect the relief that is sought. I am one of those who do not believe that the repeal of the Sherman law will prove an adequate remedy for the ills from which we are suffering. My people are in favor of the repeal of that law, but they will insist upon something to take its place. Even free coinage will not suffice. The south will be with the west in the matter of enforcing free coinage, but will join hands with the north and east in fixing the ratio."

Fired Improvisely but Hit No One.
INDIANAPOLIS, Aug. 1.—During a crap game Sunday in a saloon at Third and Lafayette, Eugene Robbins, colored, who claimed to have been beaten out of 40 cents, pulled a pistol and cut loose. Then he started to run, and immediately there was a hne and cry that he had killed Clay Adams one of the proprietors of the place. A mob of several hundred joined in the chase after the fleeing colored man, who fired back at his pursuers as he ran. He was captured, and said he lived at 148 Long street, Columbus, O. He ran for two miles in the most densely populated part of the city, firing right and left, but failed to hit any one.

A CIGAR BOX FULL OF ORE.

Borrow of Stockholders in a Colorado Mine.

ZANESVILLE, O., Aug. 1.—Stockholders in the Zanesville Mining company here are much divided in opinion concerning property which they own and operate in Boulder county, Colo. The company has been in existence some thing like 14 or 15 years, and although the capital stock of the company is only \$25,000, it is held by so many persons that it is said that one can not throw a stone in the city without hitting one of them. During the last few years there have been two divisions which may roughly be called the ins and the outs. The outs have claimed that the company has been improperly managed and have succeeded in accomplishing several ventures which have resulted in nothing so far as dividends are concerned.

Lately they have insisted that matters at the mine were not going satisfactorily, and they have insisted that a man should be sent out to examine into the condition of affairs. William Dunn, the county surveyor, was chosen, presumably on account of his superior knowledge of such affairs, and he spent a month at the mine. He wrote back highly colored letters concerning the richness of the ore and the expressions of miners as to the value of the mine until the poor stockholders saw before them pictures of immense wealth and rubbed their hands in a congratulatory way as they figured on the dividends which would soon be rolling in upon them. He found a cigar box in the mine partially filled with ore, and his fancy at once conceived that it must contain something of extraordinary value. He had a sample assayed, and it yielded gold at the rate of \$1,000 per ton. He wrote the fact home and immediately the report gained currency that the ore at the mine was of immense value.

He returned home making similar reports and saying that there should be a resident superintendent instead of M. H. Sarnis, deputy sheriff of the county in which Denver is located, who went out as often as he thought necessary to look at the property. The stockholders held meetings to hear these reports and then began to condemn the directors and to ask them what they intended to do about the matter.

In reply the directors placed correspondence with Superintendent Sarnis before the meeting, in which he said that Mr. Dunn had avoided all dates for meetings with the exception of one or two; that he had been the laughing stock of the miners, who intimated that no one knew where the piece of ore in the cigar box which he had assayed came from and that the ore in the box had been months in accumulating and that, although the ore in the mine was getting better and better, no rich ore had been found and that they were far from wealth through the mine.

Such news was not what they wanted and they are now seeking to secure the resignation of the directors, but they can't see it that way. In the meantime the stock of the company is not listed on the market.

LIGHTWEIGHT PRIZE FIGHT.

Green, the Young Corbett, Knocked Out by Paddy Smith.

ROBY, Ind., Aug. 1.—Four thousand sports saw Paddy Smith and George Green, better known as "Young Corbett," fight for the lightweight championship and a purse of \$3,500 in the ring of the Columbian Athletic club in this sporting suburb of Chicago last night. The loser being consoling with \$500. Although the fighters were comparatively unknown in the field of pugilism additional interest was given the event by the presence of Champion Jim Corbett and "Denver" Ed Smith in opposite corners of the ring.

Green is a protégé of the champion, and learned to fight by being a boxing master in San Francisco. His opponent is a brother of Denver Ed, who whipped Goddard. Both men weighed in at 133 pounds, and honors were even with them in the point of being backed with money. George Siler of Chicago was official referee. Smith was seconded by Dan Murphy, the trainer of Peter Jackson, and his brother Ed. Billy Delaney, the trainer of Jim Corbett, was with Joe Choyinski in Green's corner. The fight was an interesting one and lasted 28 rounds when Green's seconds threw up the sponge and the fight was given to Smith.

COLORADO BARBER MURDERED.

His Body Found in a Wood Riddled With Bullets.

WINCHESTER, Ind., Aug. 1.—O. K. Brown, a colored barber of this city, was mysteriously murdered about three miles south of here. When last seen he was driving south about 7:50 p. m., but his horse returned about three hours later without a driver.

Two bullet holes were found in the buggy. Sheriff Fletcher and Marshal Coffin found Browne's body in the woods, where it had been hidden. Three bullets were in the body, one in his left hip, one in his right breast and one in the right side of his head. The body was brought here. There is no clue as to who did the deed, and a careful search of the grounds was made.

Browne was brought here immediately after the war by General Thomas Browne, the congressman, lately deceased, and has owned a barber shop here ever since.

Quadruple Murder.

ANTIGO, Wis., Aug. 1.—William Nunemacher, a farmer, killed his wife and babe and two boys aged 5 and 8 years by dashing out their brains. He then plunged head first from a window in an attempt to kill himself. He is still alive but paralyzed. The cause of the quadruple murder and suicide is said to be the fear that the family would die from starvation.

HARDSHIP OF SAILORS.

Arrival of the British Steamship Dorset Badly Disabled.

NEW YORK, Aug. 1.—The British steamship Dorset limped into port Sunday a cripple, and it required the services of three powerful tugs to tow her to her dock in Brooklyn.

The Dorset was badly handicapped. Her boilers were defective, and leaked like watering pots. The plates parted at the seams, her tubes gave out, the cylinders allowed the steam to escape through wide apertures, and more than once at sea the big ship was forced to call into use her spread of canvass in order to keep her head onto the seas and while her old boilers were being patched.

In addition to these drawbacks the Dorset's crew was sadly depleted by the ravages of yellow fever. Her chief engineer, Richard Peters, was about the first to succumb to the terrible "yellow jack." This was on Jan. 2, he having been stricken a few days before and while the vessel was lying at Santos. The chief mate, S. W. Page, had died two days before, and in rapid succession followed the deaths of the donkey engineman, Von Der Wingert, and J. Corbett, an American skipper, who a short time before taking passage on the Dorset, had abandoned his sailing ship Amy in Santos. Her crew had been carried off by the dreaded disease. It was impossible to secure another crew in Santos, and after his vessel had been riding at anchor in Santos Bay for nearly a year, and only after he himself had been taken down with yellow fever, did he decide to abandon his ship and return to the north.

In the meantime, during his enforced stay in the hospital in Santos, where he subsequently told Captain Conch of the Dorset he had been more treated like a dog than a man. The natives, who live along the shore swarmed about his ship and looted it. The cargo was carried away piecemeal, and when the pirates left the ship she was practically dismantled. Nothing remained but the hull and the masts, and it was in this condition that Captain Corbett found his vessel when he returned after his discharge from the hospital. Every member of the crew was dead, and the ship dismantled. With no funds to prepare her for sea, no possibility of securing another crew and receiving no satisfaction from the authorities of Santos, to whom he complained, Captain Corbett took passage home on the Dorset. He took a relapse and died at sea.

WILL TEST THE GEARY LAW.

Chinese Six Companies Will Endeavor to Get a Second Hearing.

SAN FRANCISCO, Aug. 1.—Thomas D. Riordan, attorney for the Chinese Six companies, states that, in connection with Joseph Choate of New York and other counsel, he is preparing to make a second test of the constitutionality of the Geary Chinese registration law at the October session of the United States supreme court. He states that at a former hearing of the case Justice Harlan was in Paris, and that it is the practice of the supreme court to consent to reconsideration of points involved in a decision given by other than a full bench where important constitutional questions are concerned. He also cites the fact that the death of Justice Blatchford has removed one of the five jurists who upheld the law.

Wreck in Mexico.

MONCLOVA, Mex., Aug. 1.—A disastrous wreck occurred Saturday night on the Mexican International railway near Trevini station. A waterspout had washed away several rods of track and the eastbound passenger train dashed into the gap. Express Messenger Purral and Engineer James McLaughlin were fatally and Fireman McLarin seriously injured. A tramp who was stealing a ride was killed. None of the passengers were injured.

Russian Tariffs.

BERLIN, Aug. 1.—The St. Petersburg correspondent of the Kolnische Zeitung says that Russia intends to add on Aug. 1 50 per cent to the present maximum tariff on German imports. This will be Russia's reply to Germany's increase of 50 per cent on her tariff on Russian imports.

Electricity Cheaper Than Steam.

NEW YORK, Aug. 1.—The Brooklyn Union elevated railroad of Brooklyn, after competing for many months, with steadily increasing loss, with the new trolley cars which parallel its lines, will shortly abandon steam as a motive power and substitute electricity.

No Hope For Recovery.

NEW YORK, Aug. 1.—John Stevenson, the well known carbuilder, is lying dangerously ill at his home in New Rochelle. Mr. Stevenson, who is 84 years of age is very weak and the attending physician says that there is little or no hope of his recovery.

Catholic Services in a Baptist Church.

NEW YORK, Aug. 1.—The East Eve Baptist church, Long Island City, was used Sunday morning by a Catholic congregation, and as soon as their services were concluded the Baptists had theirs. The Catholics had lost their church by fire.

Tornado at New Hope, Ky.

NEW HOPE, Aug. 1.—This town was visited by a tornado, unroofing several houses. The north wall of E. L. Mills & Company's warehouse was blown in, and the free warehouse of the same firm was unroofed.

An Appointment.

WASHINGTON, Aug. 1.—The president appointed Charles B. Morton of Maine fourth auditor of the treasury, vice John R. Lynch of Mississippi, resigned.

Foundry Burned.

MOUNT VERNON, O., Aug. 1.—Cooper, Roberts & Company sustained a loss of \$8,000 by fire.

WORLD'S FAIR DEADHEADS.

An Effort Being Made to Greatly Reduce the Number.

CHICAGO, Aug. 1.—There has not been a general disposition on the part of the foreign exhibitors and employees to conform to the order of the council of administration regarding the scrutiny and stamping of passes "Good After Aug. 1." Many of these full term pass-holders say they are not going to run after the chief of their department or the subordinates of Superintendent Tucker to be inspected and investigated.

The British exhibitors and their employees talk in a defiant way about their rights and the ability of any man to keep them away from their exhibit when they hold a full-term pass. They declare their intention of jumping over the turnstiles if the ticket-takers refuse them admission on their passes, and intimate that the British commissioners gave them instructions.

Other foreign exhibitors take this stand-ground that as the passes they served came through the commissioner from their country, they will take orders from none other than the official representatives of their government. The exhibitors say they have submitted to enough restrictions and indignities in regard to their free admission to the fair.

There is much complaint amongst both foreign and domestic exhibitors who have already met with a refusal from the department chiefs or Superintendent Tucker's department to mark passes good after Aug. 1, on the ground that they were not regularly employed in attendance on exhibits.

The indications are that beginning to day there will be plenty of trouble for the employees of the department of admissions as all the tickets have not been stamped. The only remedy will be in an extension of the time limit for five days or more to allow all who are entitled to further admission on their passes to get them marked.

There has been a big reduction in the pass list already. Of the 35,000 full term and monthly passes which were outstanding 20,000 have been cancelled or taken up.

The Midway Plaisance and other concession passes and the exhibitors in manufacturers' building have been the heaviest losers by the inspection scheme of the council.

The national commissioners have not yet gone to Superintendent Tucker to have a record made of their badges which pass them in the gate. Judging by the temper and protests of the whole body they will make an effort to sustain their waning dignity by ordering the superintendent of the admissions bureau to appear before them and explain.

Two booths have been built, one inside of the Sixtieth street gate, and the other at Sixty-fourth street for the sole purpose of stamping the thousands of passes which are presented with a certificate giving authority to do so.

CURRENCY MOVEMENT.

Millions of Dollars Being Shipped Daily Out of New York City.

NEW YORK, Aug. 1.—The currency movement was again heavy yesterday the shipment out of town being estimated at from \$1,750,000 to \$2,000,000. The demand was from Boston and other New England points, where the need for funds seems to be more and more pressing. Currency itself in the Wall street acceptance of the term—meaning bills of small denomination—only a small figure in the movement the bulk of the shipments consisting of coin.

There is a growing disposition among New York bankers to take some action looking to a stoppage of the drain. A considerable inconvenience to themselves they have taken out clearing house loan certificates and sent large amounts of the money so released to their correspondents. Some of this money is either being hoarded or lent at high rates of interest, at the expense of New York.

In currency, accommodation was given to country banks much less freely than heretofore.

The exchange over the counter was about \$300,000, and \$250,000 was paid out on checks. Most of this was in coin, and from San Francisco \$50,000 was received by telegraph.

The clearinghouse loan certificates to the amount of \$2,225,000 were taken out. Most of this it was thought, was for use in facilitating gold imports which are expected to reach large proportions within the next two weeks. The total outstanding issue of certificates has now reached \$27,975,000. This is the largest amount ever put in to circulation, beating the record of 1878 and 1890.

Could Not Stand the Run.

AKRON, O., Aug. 1.—The Akron Savings bank did not open for business. William Buchtel was appointed receiver. The bank's capital is \$200,000. It has a surplus of \$50,000 and undivided profits of \$18,000. The bank occupies a fine building of its own. Depositors have made a heavy draw upon the bank during the past six weeks, and owing to the money stringency, the bank was unable to realize upon its assets. William Buchtel is president and Aaron Wagner, cashier. Assurance is given that the bank will pay dollar for dollar.

Two People Drowned.

ASHTABULA, O., Aug. 1.—Emory Weaver, aged 27; William Marvin, aged 17, and Warren Guthrie, aged 22, went out in a rowboat on Lake Erie for a ride. Soon after leaving the pier they got to rocking the boat and it upset. Weaver and Marvin were drowned and Guthrie was picked up in an unconscious condition after being in the water for 15 minutes. He will recover. The bodies of the drowned men were recovered.

SAVERS OF SILVER

They Are Gathering in Chicago From All Parts.

AN IMPORTANT CONVENTION

Colorado Delegation the First of Any Size to Put in an Appearance—An Anticipated Attendance of Over One Thousand—Interviews With Several Leading Delegates—What Will Be Done?

CHICAGO, Aug. 1.—Silverites from the east, the south and the west arrived in the city yesterday. The western men predominated. They came in regular delegations, in organized bodies, while those from the south and east were fewer in number and from scattered sections. The Colorado delegation was the first of any size to put in an appearance. A hundred of them arrived at the Palmer House at 9 o'clock in the morning—twice that number more arriving on the night trains. It was the most representative of all delegations and on account of the eminent men in the body. Governor Waite is chairman of the delegation, and immediately upon his arrival he took possession of the headquarters in the Palmer House and received a stream of callers all day long.

"I shall not be a candidate for chairman of the convention," he said, "and have not authorized the use of my name. I have no preference for chairman. Our delegation demands an expression in favor of free coinage of silver at the ratio of 1 to 16. That is the ratio and represents the expense of silver production with a slight margin of profit to the miner."

Among some of the leading men in the delegation are ex-Senators Hull and Tabor, Judge Rising and ex-Governor Rount. The latter said: "The situation in Colorado has been grossly misrepresented. This talk about 10,000 idle men en route to the east is the creation of an imaginative mind. There are not above 500 men working their way eastward in the freight trains. We have not over 20,000 people all told in the state who were thrown out of work. We are no worse than other states and these misrepresentations are purposely made. Colorado is all right. True values have gone rapidly since the British government suspended free coinage in India, but not much more than the reduction of values in the east. We have been sandbagged by the money power whose interest lies in the further contraction of the currency of the country, and how men can be brought to believe the demonetization of \$400,000,000 of silver will help the financial condition of the country I cannot understand. This scare of the past three months, which has locked up so much money in safe deposits vaults is an object lesson of the effect of a contraction in the circulation that will not be lost upon the people of the country."

Ex-Senator Reagan, a new commissioner of railroads for Texas, was among the first arrivals at the Grand Pacific. The ex-senator has not lost his interest in free silver which he once championed in congress, and is among the most enthusiastic delegates to the convention. A boom was started early in the day for Mr. Reagan as permanent chairman of the convention which assumed some proportions when General Warner announced that he would not be a candidate for the chairmanship and favored the selection of Mr. Reagan.

Among the southern men present in the city is J. A. McDowell of Tennessee, chairman of the Peoples' party committee of that state, and one of the ablest and most astute politicians in the south.

The Kansas delegation, numbering several hundred people, arrived last night at the Great Western hotel, which is also the headquarters of the Nebraska and Iowa delegations.

Chairman Harvey of the local committee, whose headquarters are at the office of Coin, in the Montank building, anticipates an attendance of from 800 to 1,500.

Mayor Harrison will deliver an address of welcome. A permanent organization will be formed and committees appointed on order of business and resolutions, and an adjournment taken.

PURCHASING SILVER.

The Treasury Has Failed to Purchase the Full Quota.

WASHINGTON, Aug. 1.—For the first time since the passage of the Sherman silver law the treasury last month failed to buy the full quota of 4,500,000 ounces of silver. The total purchase for the month was 2,384,000 ounces, leaving a shortage of 2,116,000 ounces. The amount purchased yesterday was 216,000 ounces at the counter figure of \$0.7030 per ounce.

The two Populist members of congress from Colorado—Messrs. Pence and Bell—were at the treasury and had an interview with Secretary Carlisle and Acting Mint Director Preston. They were in Mr. Preston's room at the time he rejected all the offers and made the counteroffer of \$0.7030 cents per ounce. Both of them were much concerned about what they claimed was an effort of the treasury department to "bear" the price of silver in the markets of the world. The silver men indicate a purpose to precipitate a silver discussion on the first working day of the extra session of congress by a resolution of inquiry as to whether or not the secretary of the treasury has not exceeded his authority in refusing to purchase 4,500,000 ounces of silver in July as provided by the Sherman law.

TUESDAY, AUGUST 1, 1893.

WEATHER INDICATIONS.

For Kentucky, generally fair and cooler Tuesday, with northerly winds.

Five or six million dollars in gold will land at New York this week. Such news has a healthy ring.

The situation in Nicaragua grows more unfavorable. The little State is in an almost hopeless state of confusion from a series of revolutions.

The story that a negro had been thrown into a threshing machine in Western Kentucky and horribly mutilated because he had cut a white man is shown to be entirely false. It was almost too absurd for belief, on its face.

COLONEL F. C. AINSWORTH and the three others held responsible for the Ford's Theater disaster, were arraigned in court at Washington last Saturday, on the charge of manslaughter, and pleaded not guilty. The cases will be called for trial in October.

Siam's surrender may have had a string to it, if reports are true. It is said that the French ultimatum was not accepted until assurance had been given that no steps for the dismemberment of Siam would be taken before all the powers concerned had been given an opportunity to consider and approve France's demand for the territory between the eighteenth and twenty-third parallels. The French Ministry Sunday accepted Siam's concession, but deferred further action till measures shall have been taken to guarantee the King's fulfillment of the demands.

An illustration of the way in which unreasonable runs are sometimes made upon banking institutions is afforded by the experience of a Louisville bank last Tuesday. A woman having a small sum on deposit at the German Bank demanded it, but was refused because she neglected to bring her certificate of deposit and declined to bring in any one to identify her.

She spoke very much above a whisper, as is sometimes the practice of excited womanhood, and a considerable crowd soon collected at the bank, and a spontaneous impression that the bank had suspended broke out and caused a rush on the bank. Last May reports were spread in two cities, one in Pennsylvania and one in Wisconsin, that certain banks had closed their doors.

In each case the report was traced to the hasty reading of a notice pasted on the door of the bank, announcing that it would be closed on Memorial Day. Fortunately there are no legal holidays in the near future, but if anybody chances to read out of the corner of his eye as he runs by a bank a fragment of the "Closed at 1:30 on Saturday" sign, let him refrain from straightway precipitating a stampede by reason of his fractional-mindedness.

Ruggles Camp Meeting.

RUGGLES CAMP GROUNDS, July 31, 1893.
 Editor Bulletin: After such a crowd as was here yesterday everything seems very quiet, so much so that one feels somewhat lonesome.

This morning's sunrise prayer service was well attended, but the 9 o'clock memorial service was one that will long be remembered by every one who attended it. The list of those who have died since our last camp meeting are twelve in number, all of them were regular attendants of the camp meeting. Some of them helped to organize it. The friends of each and every one of them have good reason to rejoice at the triumphant death of the just of these, and also at the high esteem in which they were held by all connected with the camp grounds. A list will not be amiss here. They are: Mrs. Carrie Lane, Captain James Hefflin, Mrs. Annie P. Roberts, of Maysville; Mrs. Georgia A. Owens, Mrs. Sarah Conway, Mrs. Martha A. Marshall, Mrs. Hattie Bruer, Little Dick Owens, Mrs. Win. Nash, Tolleboro; Geo. Kelley, Mrs. Kitty Anderson, Mt. Carmel.

At 1 o'clock was the children's meeting.

Who that ever saw the Great Commoner, Henry Clay, but will readily recall his piercing eyes! It is told of him that at one of his stopping places on the road from Maysville to Lexington, he had occasion to complain of the poor fire. He did this more than once, and in no very complimentary language; and Colonel Paine, the proprietor, vowed that the next time he did it he would give him as good as he sent. On Mr. Clay's return and the fire again not suiting him, he roundly abused the Colonel, who received it as meekly as ever, and upon being asked why he had not been as good as his word and stood up to Mr. Clay, replied that he could not do a thing while these terrible eyes were looking right through him.

Now is the time to buy. I will place on sale commencing to-day fifty ladies' watches, regular price \$45, your choice for \$30; fourteen karat, stem wind, handlessly engraved, Elgin or Waltham movement.
 P. J. MURPHY,
 Successor to Hopper & Murphy.

Carrier Pigeons Loosed.

Nineteen carrier pigeons were loosed at Catlettsburg at 5 o'clock Friday evening, and after soaring upward for about 10 minutes struck off in a northeasterly direction at an immense height. The birds were sent to Express Agent W. J. Saunders from Watertown, N. Y., by L. J. Davis, and were to be let loose on a trifle over five hundred miles, which it is expected the birds would cover in about fifteen hours. No particulars could be learned, but at the rate in which the start was made, the distance was likely covered in much less time.

This is a Good One.

The following special was sent out from Vanceburg: "A young lady named Hetty Irwin, living at Martin, this county, has just completed a quilt that is quite a novelty of its kind. She has devoted long months to its construction. It represents a complete county and precinct map of Kentucky, all the towns, post-offices and various streams located. She is to be married soon."

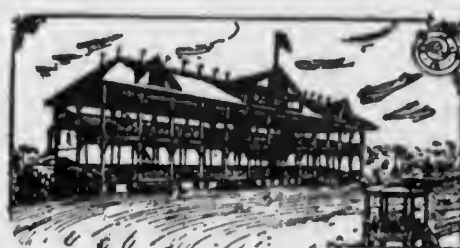

When Baby was sick, we gave her Castoria.
 When she was a Child, she cried for Castoria.
 When she became Miss, she clung to Castoria.
 When she had Children, she gave them Castoria.

A Regular Sewing Circle.

[New York Tribune.]
 Herr Pollak, who claims to be the fastest talker in the world, is on exhibition at the World's Fair. He has a meaningless list of 20,000 words, which he says he can repeat in forty minutes, and he will give 40,000 florins to any stenographer who will take him down.

CAPTAIN SWEENEY, U. S. A., San Diego Cal., says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good." Price 50c. Sold by J. James Wood.

LEXINGTON, KY., FAIR.

 A 25 cent package makes Five gallons. Be sure and get Hires.

Complete Manhood and how to attain it.

At last a medical work that tells the causes, describes the effects, points the remedy. This is scientifically the most valuable, artistically the most beautiful, medical book that has appeared for years; 96 pages, every page bearing a half-tone illustration in line. Some of the subjects treated are Nervous Debility, Impotency, Sterility, Development, Varicocele, The Husband, Those Intending Marriage, etc. Every man who would know the grand truths, the plain facts, the old secrets, and the new discoveries of medical science as applied to married life, who would alone for past follies and avoid future pitfalls, should write for this wonderful little book. It will be sent free, under seal. Address the publishers,
 Erie Medical Co., Buffalo, N. Y.

DR. APPLEMAN,

«SPECIALIST!»

Nervous, Chronic, Throat and Catarrhal Diseases.
 Late from New York City, now permanently located at Louisville, Ky.

REMEMBER THE DATE,
 AND COME EARLY.

HIS ROOMS CROWDED
 WHEREVER HE GOES

WILL MAKE HIS NEXT VISIT TO
MAYSVILLE, AUGUST 17th and 18th,
 TWO DAYS, returning monthly thereafter—parlors at the CENTRAL HOTEL. From Thursday at 10 a. m. till Friday at 3:30 p. m.

DR. APPLEMAN'S NEW SYSTEM.

So many thousands are already acquainted with Dr. Appleman's mode of treatment in this country, it is only necessary to say by this method an equilibrium of the vital powers is at once established, and an equalization of the circulation maintained. Thus nature is enabled to throw off the obnoxious matter. Medicine will act like a charm and health at once ensue.

Dr. Appleman's experience in the Great Medical Schools and Hospitals of New York enables him to treat all Chronic and Catarrhal Diseases understandingly, and with never varying success. He does not claim to cure everything like some physicians. Bear this in mind. Call and see for yourself. He does not practice deception. Dr. Appleman uses nothing but the latest and most improved treatment in foreign hospitals—nearly all medicines new.

The Greatest of all Gifts—The Power of Diagnosing Diseases.

Dr. Appleman knows he is one of the Greatest Diagnosticians in the world. He has a national reputation for diagnosing the most complicated diseases. By his keen perception and intuition he is enabled to fathom the most complicated disease and reveal to the sick one the true fountain and cause of their suffering, where other physicians have failed and were groping in darkness.

By his correct understanding of each and every case, Dr. Appleman is enabled to cure hundreds of diseases given up by the most eminent physicians in the country.

CATARRH—Dr. Appleman can absolutely and permanently cure any case of Catarrh that ever existed. He honestly believes he can show a greater record of cases of Catarrh cured than all the physicians in Kentucky combined.

Over 10,000 afflicted cured of Nervous, Chronic, Throat and Catarrhal Diseases in ten years. Catarrhal Diseases, Epilepsy, Seminal Weakness, Neuralgia, Spermatorrhea, Night Losses, Weak Back, and all diseases of the Mind, Dyspepsia, Consumption (in first and second stages), Catarrhal Deafness, Heart Disease, Disease of the Blood, Female Diseases, Liver and Kidney Complaints, Nervous Exhaustion, General and local Debility, etc. Dr. Appleman guarantees to restore impaired Vital Energy, to invigorate the debilitated Constitution, stimulate the Organic Action, promote the Circulation and promptly renew that Vital Energy, the loss of which is the symptom of decay.

"What is it?" and "How does he do it?" are questions asked by hundreds of people. Dr. Appleman can refer you to hundreds and hundreds of persons whom he has treated and cured. If you have been humbugged or badly treated do not wait for a more convenient season, but come at once and put his wonderful powers to the test. You will never regret it. Remember the date. CONSULTATION PRIVATE and FREE TO ALL.

Dr. Appleman will treat you honestly, and positively will not throw out any false hopes or take your case if he cannot cure you. If your case is incurable he will frankly and honorably tell you so; also caution you against spending money for medicines which impostors usually suggest. Charges shall be reasonable and within the reach of all.

WORLD'S CONGRESS.

A Great Convention of Catholic Societies to Meet in Chicago.

A Wide Range of Topics to Be Discussed—Papers on Catholic Education.

The Congress will assemble in the Memorial Art Palace, Michigan avenue, September 4, at 11 a. m. Arrangements have also been made for holding in Chicago during the week of the Congress general conventions of the following important organizations, viz: The Catholic Young Men's Societies of the United States, the German Catholic Young Men's Guilds, the Societies of St. Vincent de Paul, Congress of Colored Catholics, meeting of the Catholic press, reunion of the American Louvain students.

Separate halls and committee rooms will be assigned to each of the various bodies in the Memorial Art Palace. The week of the Catholic Congress will be the "Catholic Week" of the World's Columbian Exposition. It will be followed the succeeding week by the annual meeting of the Archbishops of the United States, who will assemble in Chicago, under the Presidency of His Eminence Cardinal Gibbons. The Cardinal will in person open the proceedings of the Catholic Congress. Monsignor Satolli will also be present.

Representatives of the Catholic hierarchy of England, Ireland, Scotland and of several nations of the continent are expected. Monsignor Gadd, of Manchester, has already been chosen by Cardinal Vaughan to represent the English Bishops, Cardinal Moran will attend and represent the Australian church. Several of the Irish Archbishops and Bishops are also looked for, and distinguished Catholic laymen from almost every land. Altogether, the indications are that the week commencing September 4 will be a memorable one in the history of the American church, drawing multitudes of adherents of the Catholic faith to Chicago.

Delegates are to be named by the Archbishops and Bishops in the proportion of one delegate for every five thousand Catholic population, as shown in the latest Catholic almanacs. A credential card will be given to each delegate, duly signed by the Archbishops or Bishop of the diocese or vicariate. Catholic colleges and seminaries for young men are entitled to send two delegates-at-large for each institution, and one additional delegate for every hundred students and fraction thereof. Notice of the appointments, made with full list of delegates, giving the address of each, are to be sent to the Committee on Organization, Chicago, as soon as practicable. A copy of the programme, &c., will then be mailed to each delegate. The headquarters of the committees up to the date of the assembling of the Congress will be at the Grand Pacific Hotel, Chicago.

MONDAY, SEPTEMBER 4.
11 a. m.—Temporary organization of Congress. Reading of correspondence, &c. Address of welcome.

Order of Papers.
Columbus; His Character and Mission. Results and Consequences of the Discovery of the New World. Missionary Work of the Church in the United States. WEDNESDAY, SEPTEMBER 6.
10 a. m.—Reports of officers and committees. Order of Papers on "The Social Question." The encyclical of Pope Leo XIII on the condition of labor; address by Rt. Rev. John A. Watterson, Bishop of Columbus. The Rights of Labor, The Duties of Capital (three papers). Poverty—The True Remedy (two papers). Public and Private Charities (four papers). Workingmen's Organizations and Societies for Young Men (three papers). Evening session.

THURSDAY, SEPTEMBER 7.
10 a. m.—Reports from officers and committees. Papers on the "Social Question." Intemperance (two papers). Life Insurance and Pension Funds for Wage-workers (two papers). Trade Combinations and Strikes. Immigration and Colonization, (four papers). Condition and Future of the Indian Tribes of the United States. Condition and Future of the Negro Race in the United States, (two papers). Evening session.

Note—The titles of the different papers and names of the writers will appear in the official printed programme.
FRIDAY, SEPTEMBER 8.
10 a. m.—Reports from sections, committees, &c. Papers on Catholic Education in the United States. Catholic Higher Education. The Needs of Catholic Colleges. The Catholic School System. Catholic High Schools. Alumnae Associations in Convent Schools. The Independence of the Holy See. The Work of the Catholic Truth Society. Final Reports, Resolutions, &c. Evening session.

The Congress will, if necessary, hold a session Saturday, September 9.

The following is taken from the Louisville Star: "The Louisville and Cincinnati Mail Line Company has laid the steamer Fleetwood up for ever at Howard's ship yard across the river, where a new, large and palatial boat is being built to take her place. As a parting salute, Colonel Tom. Hall fires this shot at the grand old steamer:

Beautiful Fleetwood! Thing of the past;
After a long life, laid up at last.
Gone to the bone-yard over the stream,
Gone from our pleasure—still in our dream.

Beautiful Fleetwood! Thy task is done;
After long service your laurels you won,
But you're now in the bone-yard, old lady,
And your service in life we'll never forget.

CHIPPED and corned beef, Calhoun's.
